Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1911 Excerpt: .are, on the whole, the most recent immigrants, nearly 40 per cent having been in the country less than five years and all having come within twenty years. Syrians, Poles, and Lithuanians all show more than one-fourth of their number in the United States under five years and at least 55 per cent here under ten years. The table next presented classifies all foreign-born persons, including heads of households, according to the number of years since their first arrival in the United States. In this table male heads of households, who have been shown separately, are included. The table is based on General Table 10. Table 19.--Number and per cent of foreign-born persons in the United States under five years, five to nine years, etc., by race of individual. (By years in the United States is meant years since (first arrival in the United States. No...
