THE CELL: A VERY SHORT INTRODUCTION

Oxford University Press. Paperback. Book Condition: new. BRAND NEW, The Cell: A Very Short Introduction, Terence Allen, Graham J. Cowling, All living things on Earth are composed of cells. A cell is the simplest unit of a self-contained living organism, and the vast majority of life on Earth consists of single-celled microbes, mostly bacteria. These consist of a simple 'prokaryotic' cell, with no nucleus. The bodies of more complex plants and animals consist of billions of 'eukaryotic' cells, of varying...

Reviews

Good e-book and useful one. It typically does not expense an excessive amount of. I am just delighted to tell you that this is basically the finest book we have read during my very own existence and could be he best ebook for actually.

-- **Audra Hodkiewicz**

If you need to adding benefit, a must buy book. We have read through and so i am confident that i am going to going to study yet again once more in the future. Once you begin to read the book, it is extremely difficult to leave it before concluding.
