

Deliver Audacious Web Apps with Ember 2

By Matthew White

Pragmatic Bookshelf. Paperback. Book Condition: new. BRAND NEW, Deliver Audacious Web Apps with Ember 2, Matthew White, It's time for web development to be fun again, time to write engaging and attractive apps--fast--in this brisk tutorial. Build a complete user interface in a few lines of code, create reusable web components, access RESTful services and cache the results for performance, and use JavaScript modules to bring abstraction to your code. Find out how you can get your crucial app infrastructure up and running quickly, so you can spend your time on the stuff great apps are made of: features. With its 2.0 release, the Ember JavaScript framework has taken a major step forward. In this book, you'll learn these new features: how to use module-driven development with Ember CLI, take advantage of the new DOM-based rendering engine, and use a service-based architecture to make your apps flexible, not brittle. Use the Ember CLI to build your app using module-focused JavaScript classes with a clear project structure. Learn how to use Ember's routing classes to organize your app, write web components that marry your user interface and logic without leaky access to state, and read and write data from RESTful services...
