

Bulletin No. 1 Nurses Papers on Tuberculosis

Filesize: 6.85 MB

Reviews

A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.

BULLETIN NO. 1 NURSES PAPERS ON TUBERCULOSIS

[DOWNLOAD](#)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 48 pages. Original publisher: Washington, D. C. (P. O. Box 37050, Washington 20013) : U. S. General Accounting Office, 1996. OCLC Number: (OCoLC)35244148 Subject: Biological warfare -- United States. Excerpt: . . . B-258889 to report to these units at deployment, only a limited number had completed the medical officer advanced and casualty management courses. The percentage of physicians that had attended the advanced course ranged from 19 to 53 percent, while from 3 to 30 percent had attended the casualty management course. Army medical officials told us that the demands of providing peacetime medical care to military personnel and their dependents often prevented attendance at these courses. Furthermore, the Army had made no effort to monitor whether these physicians had received this training, and attendance of the casualty management course was neither required nor targeted toward physicians assigned to early deploying units or otherwise needing this training. We also found little or no training is being conducted on casualty decontamination from chemical or biological agents at most of the early deploying divisions and medical units we visited. There was usually confusion among these units regarding who was responsible for performing this task. According to Army doctrine, tactical units are expected to conduct initial casualty decontamination before their evacuation or arrival at forward medical treatment facilities. Army lessons learned from Operation Desert Storm noted that some units lacked understanding of the procedures and techniques used to decontaminate casualties. This situation had not been corrected at the time of our review. Although has taken actions to improve chemical and biological DOD Problems Remain Due defense since the Gulf War, s emphasis has not been sufficient to DOD to Limited Emphasis resolve many serious lingering problems. Our measurement of key...
