MAMAIND STRESS: THE NEED FOR STRATA

Summer Institute of Linguistics, Academic Publications. Paperback. Book Condition: New. Paperback. 159 pages. Dimensions: 8.8in. x 6.0in. x 0.4in. Stress plays an important role in the phonology, morphology, and syntax of Mamaind. The author uses the current theories of metrical and lexical phonology to analyze this stress system. It is demonstrated that a typical application of metrical rules alone will not predict stress correctly. Instead, Mamaind must make use of multiple strata in order for stress placement to be predicted.
